Professional Profile

Software developer with several years of professional experience, primarily working with **C#/.NET**. My previous work includes developing Visual Studio and Azure DevOps extensions, Windows-based applications, as well as development tooling and CI/CD solutions.

Later, I gained experience developing Python- and Perl-based backend systems in Linux environments, as well as working with CI/CD automation, Docker, and AWS ECS.

I currently work in a system administration role, but I am looking to return to a **software development position, primarily in the C#/.NET ecosystem**.

Professional Experience

Környezetprofil Környezetvédelmi és Ingatlanfejlesztő Kft. – System Administrator

April 2024 – | Budapest, Hungary

- Maintenance of a company email system based on Windows Server and Microsoft Exchange

Sophos Hungary Kft. – Software Developer

- Version control using Git and Azure DevOps

Titán Soft Bt. – Intern

September 2012 – March 2013 | Budapest, Hungary

- Development and maintenance of a company website using TikiWiki CMS Groupware
-

Education

BSc in Information Technology Engineering Óbuda University, John von Neumann Faculty of Informatics
2007–2014 | Budapest, Hungary

Technical Skills

Primary Development Experience

- **C# / .NET / .NET Core**
- **Visual Studio**
- **Azure DevOps**
- **WPF**
- **Windows applications**

Additional Development Experience

- Python
- Perl
- Angular
- PowerShell
- SQL

DevOps / CI/CD / Cloud

- GitHub Actions
- Azure DevOps
- Docker
- AWS ECS
- Windows Server
- Linux

Databases

- MySQL / MariaDB
- Microsoft SQL

Version Control

- Git
- GitHub
- Azure DevOps
- Perforce

Other

- Jira

Languages

- **Hungarian** – native
 - **English** – B2 level, used daily in an international work environment
-

Interests

3D printing – modelling and designing custom parts using FreeCAD and OpenSCAD

Other

- **Driving licence** – Category B
